## Adoption – Granting notes

### Application to Dispense with Consent (when combined with Application for Adoption Order)

The following issues should be considered before undertaking and claiming this activity:

- the application to dispense with consent is a separate application from the application for an adoption order, and will be the subject of a separate hearing
- the s 10 report from the social worker is supportive of the application for adoption - the interim, or in some cases final, order may be made by consent in a chambers list
- an interim order has been made and requires an application for a final order at a later stage - with a separate hearing possibly being required.

## Paternity – Granting notes

---

### DNA Testing

Evidence in support of parentage applications is normally by affidavit and bodily sample (DNA test) results. DNA testing will involve three people – the mother, the child and the alleged father. The cost is normally equally shared between the parties (parents).

The special disbursement incurred in the fee schedule is 50% DNA test cost.

The legally aided person may request that we pay 100% of the cost of DNA testing because:

- the other party refuses to pay the cost of testing, however agrees to testing taking place or
- the other party cannot afford to pay for the cost of testing.

An amendment to the grant will be required to seek prior approval of the special disbursement. In the event a legally aided person 'pays' for the full cost of testing then, if the testing is positive, the provider will be required to seek the costs of testing from the other party. It may be necessary to complete a Deed of Subrogation/Assignment for this purpose (agreement between the Ministry of Justice and the provider to assign collection of debt to the former).

The preparation/agreement of the Deed of Subrogation/Assignment is paid as a separate disbursement.

### Pre-proceedings

If the parties settle prior to Paternity proceedings, this fee applies instead of the general Pre-proceedings settlement fee.

Interim Grant – Determine Merits/Prospects of Success	<b>\$290</b>	For <ul style="list-style-type: none"><li>• Taking instructions, attending the client</li><li>• Identifying merits/prospects of success of application</li><li>• Preparing application for legal aid</li><li>• Reporting to client</li></ul>

## Interim Grant – Granting notes

Legal aid may be granted on an interim basis in specific circumstances when the Commissioner needs to make informed decisions on whether a case has merit or prospects of success. Interim grants enable a provider to investigate a matter prior to a decision being made on the substantive application.

An example, in which an interim grant may be considered, includes complex family cases where the interim grant will enable the provider to provide an opinion of the merits or prospects of success.

A fixed fee is claimable where legal aid has been granted on an interim basis to cover the work required by the provider to identify the merits/prospects of success.

Interim grants of aid are **not available**:

- to gather general information that is not complicated and that can be obtained through the normal process of requesting further information, such as information to determine financial eligibility
- to fast-track urgent cases
- for on notice COCA cases.

A pre-proceedings settlement fee applies to each proceeding that is settled, with the exceptions listed below.
